I am passionate about building impactful, user-centric web applications with modern technologies like ReactJS, ExpressJS, and MongoDB. I have also involved myself in problem-solving and participated in around 15+ contests.

Education

Metropolitan University
B.Sc in Software Engineering
Current CGPA: 3.79

Sylhet, Bangladesh
January'22 - December'25

Technical Skills

Languages: C, C++, Python, JavaScript

Libraries/Frameworks: ReactJS, ExpressJS, MongoDB

Tools: Git, GitHub

Projects

TechGigs- A freelancing website

June'25 -Present

- Developed a full-stack freelancing website that helps users add tasks, bid for tasks, update, and delete tasks. Users can view tasks in a beautiful UI and dashboard.
- Used **React and Firebase** in the Frontend, and for the Backend used **NodeJS, ExpressJS**. For database management used **MongoDB**.
